Thirty two new members and three group memberships (each with two people in) since our last AGM
None in progress,

Occasionally people sent applications for ArtBazaar but no jotform for membership. The process is clear enough. I only get the membership applications, Sharon gets the stall applications. Sharon and I cross reference these to resolve issues.

The membership committee is sent a copy of each new application to consider. An acceptance letter is sent to the applicant after at least two committee members agree.

Occasionally there has been a problem with stall holders offering goods which seemed inappropriate, (someone else's work or not original work). These have usually been resolved by the membership team in consultation with other committee members.
