Stall holders may access the site via the car park, which you enter from John Street. Please note that due to the tight space this year, it's important that you stick to your allotted bump in times, unload, and then move your vehicles off site before setting up, so as not to park anyone in or create congestion. Please park vehicles along John Street, so that customers can use the car park.

And don't forget we get an extra hour daylight saving sleep-in!
